## Synonymical and distributional List of the species of Bitlis Province (East Turkey) (Lepidoptera)<sup>1</sup>

Muhabbet Kemal Ahmet Ömer Koçak

**Abstract:** Kemal, M. & A.Ö.Koçak, Synonymical and distributional List of the species of Bitlis Province (East Turkey) (Lepidoptera). *Cent. ent. Stud., Misc. Pap.* 111/112: 1-12.

This paper deals with the Lepidoptera species hitherto recorded in the Bitlis Province in the East Turkey. Totally 414 species are listed alphabetically under the relevant families. For each species, the scientific name, author, date of publication, synonyms, and distributional information in Turkey as provincial codes are given.

**Key Words:** *Lepidoptera*, fauna, checklist, Turkey, Bitlis Province.

This article is based upon the information of the Databank and the Collection of the Cesa. The aim is to inform the readers about the present situation of the Lepidoptera fauna of the Province Bitlis. This province is currently under investigation within the Project Lepidoptera of Turkey (LTR) carried out by the authors (Cesa) for the period 2007-2010. The publications on the Lepidoptera of Turkey used are listed in *Memoirs* vol.2 (1991) and 3-4 [under preparation]. In the list mentioned below, all the species known from the related province are given as current scientific name combination, author(s), date of publication. Totally 414 species are arranged alphabetically under the related families. Synonymous names are given with the author(s) and date of publication in the chronological order. Distributional information of each species indicates that the Turkish provinces in codes<sup>2</sup>.

In the next issues of this serials you will find similar faunistic lists of the various provinces of Turkey, under investigation within the frame of the research Project of the Cesa.<sup>3</sup>

## MISCELLANEOUS PAPERS

ISSN 1015-8235

**Miscellaneous Papers** is a scientific serial published by the Centre for Entomological Studies Ankara at irregular interval in a year. The serial serves as a refereed publication outlet and accepts original manuscripts on insects, especially **short** (2-16 pages) articles dealing with their taxonomy, nomenclature, checklist, fauna, biodiversity, distribution, biogeography, ecology, insect-plant interactions, bionomy, and behaviour. The CESA is a non-profit organization, no royalties will be paid to authors of contributions. Papers accepted become the copyright of the journal. Ten reprints of each paper are free of charge.
